Projects

Web Design (Portfolio)

Crafted a dynamic portfolio leveraging HTML and CSS to showcase a diverse array of projects. The design reflects a seamless fusion of creativity and technical acumen, offering a visually engaging and user-friendly experience. Visit [] to explore a comprehensive overview of skills, achievements, and a commitment to delivering excellence in web design and development.

Portfolio Showcase Project

Web Design

Conceptualized and executed a personal portfolio website to showcase my skills and projects, starting with the creation of a visually compelling web design using Adobe Photoshop.

Instagram post

Conceptualized and designed a captivating Instagram post using Adobe Photoshop. Leveraged creative elements to communicate effectively and engage the audience visually.

Posters

Spearheaded the ideation and execution of a captivating poster series using Adobe Photoshop. Each poster was meticulously crafted to convey distinct messages and evoke specific emotions, demonstrating a keen understanding of visual communication principles.

E-mail template

Spearheaded the development of a tailored email template dedicated to resume submissions, utilizing the power of HTML and CSS. The objective was to create a visually engaging and responsive template, ensuring seamless compatibility across various email clients.

Logo Design

Utilizing the golden ratio principle to craft captivating logos from sketch that resonate with target audiences. Combining creativity and technical skill to create visually compelling brand identities
